IDEAL HUNTING KNIFE

NO. 45 — LEATHER HANDLE

Thick, forged blade, relieved by hollow grinding, provides proper balance for weight and size. All knives have a heavy tang into which are driven wedges of sole leather, red and black files and brass. This is brass. All parts held tightly in place by a round brass nut sunk into an aluminum lip engaging the threaded tang. Blade and tang forged from high carbon manganese cutlery steel, expertly tempered, polished and honed to a razor-sharp edge. Embossed leather sheaths up to 6".
